Gage Telephone Systems Offers On-Demand Communications Technology Training to Their Customers

Small to Mid-Sized Companies to Enhance Technical Knowledge at No Cost by Receiving Convergence Technologies Training and Certification

Baton Rouge, LA — January 28, 2010 — Gage Telephone Systems, Inc., an industry leader in unified communications, announced today that the company is offering advanced on-demand communications technology training to their customers. The region's small to mid-sized companies are now able to easily enhance their technical knowledge at zero cost by receiving Convergence Technologies Training (CTT) and Certification. Through the company's membership in Technology Assurance Group (TAG), an international organization of unified communications providers representing \$400 million in combined sales, and their strategic partnership with TechnologyUS, Gage Telephone Systems, Inc. has created an avenue to enhance the skills sets of the businesses they serve, while further differentiating their value proposition from their competition.

"In our endless effort to provide solutions and services

that drive customer profitability and productivity, we launched a program to help our customers stay at the forefront of communications technology," commented Jason Landry, VP of Sales of Gage Telephone Systems, Inc.. "CTT is a phenomenal program that delivers the latest information. It gives us another opportunity to share our expertise, enables our customers to enhance their understanding of our solutions, and illustrates our commitment to customer satisfaction. We believe the more knowledge someone possesses the more successful their company will become."

CTT provides students with a solid understanding of voice, video and data technologies, while focusing on the day to day knowledge of convergence technologies. Designed to dispel the mystery of VoIP and advanced applications, the training materials are written and delivered in step-by-step layman terms.

CTT is an extensive program with 13 modules comprised of 30 sessions that can be spread over a period of several weeks. The courseware builds upon

each segment allowing for manageable scheduling in accordance with daily responsibilities. Taught by industry experts and experienced certified instructors, CTT courses are online via pre-recorded virtual classrooms and students connect via audio and web media streaming. Upon completion students receive a Convergence Technologies Training Certification.

"We're very excited about offering CTT to our valuable customers," added Mr. Landry. "In conjunction with TechnologyUS (www.technologyUS.com), Gage Telephone Systems, Inc. has the ability of providing our customers with a \$1,195 training program at no cost. One of our philosophies since the inception of the company was to offer as much technical knowledge as possible to our customers and this is just another example of us living up to it."

ABOUT GAGE TELEPHONE SYSTEMS

GAGE Telephone Systems, Inc. was established in 1980 by Gregory A. Wood, Sr. The

company's original mission continues today, which is to provide the very best products and services that enable its clients to increase their profitability, obtain a competitive advantage, and improve employee productivity. GAGE has served the Baton Rouge and South Louisiana business community for nearly 30 years through a culture of striving towards excellence and unparalleled commitment to customer service.

GAGE helps companies of all sizes simplify their

technology decisions with straight answers about everything from business telephone systems and computer networking to VoIP and voicemail services. The company conducts a complete needs analysis to ensure that each customer implements the right technology to meet their needs now and into the future.

GAGE has built a strong team of highly experienced and industry certified voice and data specialists. These individuals proactively assist customers through high level support and

strive to exceed their expectations on a daily basis. The team is backed by a fleet of state-of-the-art service vehicles ready to respond to customer calls 24 hours a day, 7 days a week. GAGE has distinguished itself from the competition by becoming one of the region's leading telecommunications companies.
