

Harness the Power of **Cloud Communications**

THE LAST PHONE SYSTEM YOU'LL EVER NEED

Picking a business communications system can be a challenge. As soon as it's installed, your organization's outgrown it or new, must-have capabilities come to market. It's hard to keep up. We deliver a carrier-class communications solution "as a service" from the cloud. There's no system to install, so you can add seats or functionality on-demand.

Flexible & Future-Proof

COMPARED TO ON-PREMISE PHONE SYSTEMS

// focus on your business

We take care of the details – phones, installation, training and ongoing service – so you can focus on your business.

// right-size your costs

Buy only what you need on a flat rate per phone, per month. As your business requirements change you can add or remove services as needed.

// enjoy enterprise-class features

Get powerful features, such as direct inward dialing, CRM integration, unified communications, team and video collaboration, emergency call notification and more.

// never miss a call

Even if there's a power outage or natural disaster at your office, you can automatically reroute calls to another location or phone number, so you'll never miss a call.

// unprecedented call control

Web-based CommPortal gives users and administrators the power to manage call routing and other preferences.

// enable remote employees

Supporting a distributed workforce is easy. You can put a phone anywhere with an Internet connection and it will integrate seamlessly with our cloud-based platform.

// mobilize your business

With our mobility package, your employees can use our Hosted PBX features from their smartphones, tablets, laptops or other mobile devices.

// unify communications

Integrate voice, video, presence, instant messaging and email into a single platform with Accession Communicator for desktop or mobile devices.

Phones & Features to **Fit Your Needs**

Our hosted communications solution has the flexibility to support all types of work and workers. Choose from full-featured IP desktop phones, wireless handsets and conferencing systems. If desired, pair with our Accession UC softphone for desktop or mobile devices.
